

CONDENSED DISTILLERS SYRUP

The balanced liquid feed that is proving to be very effective in our pasture-based environment.

The product benefits are best summarised as follows:

- High energy of 15 – 16 mj/Kg DM due to high carbohydrate (starches, sugars and other carbohydrate products) and fat contents in combination with low fibre.
- Protein at around 17 percent DM basis.
- Very palatable.
- Can be ad-lib fed in combination with fibre as part of a sensible feeding regime.
- Has excellent flow properties and requires no heating or dilution for good handling and dispersion in feed mixes.
- Is cost effective
- Is readily available year round for delivery in bulk tanker loads or 1000 litre IBC units.
